NARONGRIT SORNJAI

Frontend Developer

Bangkok, Thailand 10500 | (+66) 96-818-7630 | sonjainarongrit15@gmail.com

Portfolio: https://dev-port-ten.vercel.app

GitHub: https://github.com/Lepidocodie

A highly motivated recent graduate (Second-Class Honors) transitioning into a Frontend Developer role. Offers a unique blend of rigorous analytical problem-solving from a science background and hands-on proficiency in modern web technologies, specifically React, Next.js, and Vue.js. Proven ability to architect component-based applications, manage complex data structures, and collaborate effectively within cross-functional teams. Seeking to leverage a fast-learning mindset and data-driven approach in a dynamic tech environment.

EDUCATION

Bachelor of Science in Geology | *Chulalongkorn University, Bangkok, Thailand* *2021 – 2025*

GPAX: 3.47 (Second-Class Honors)

TOEIC: 650 (Listening: 360, Reading: 290)

TECHNICAL SKILLS

- **Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** Node.js, React, Next.js, Vue.js, Nuxt.js, Tailwind CSS
- **Tools & Version Control:** Git, GitHub, VS Code, Vite
- **Core Concepts:** RESTful APIs, JSON Handling, Responsive Web Design (Mobile-First), CamelCase, Agile

TECHNICAL PROJECTS

SkillFrameX – Online Learning Platform | *Next.js, TypeScript, Tailwind CSS, React*

Developed a responsive online learning platform focusing on a seamless user experience for browsing courses and tracking academic progress.

- Implemented a robust filtering system utilizing useSearchParams for dynamic search and category selection, enabling shareable URLs.
- Integrated custom React hooks (useProgress) to manage enrollments and calculate real-time course completion percentages.

SALTY v2 – E-commerce (Nuxt Edition) | *Nuxt.js, Vue , TypeScript, CSS*

Refactored and migrated a vanilla web project into a robust Single Page Application (SPA) to master the Vue ecosystem and modern frontend tooling.

- Applied custom Vue Composables (useCart, useProducts) to efficiently manage global state and dynamic product datasets.
- Leveraged Nuxt's file-based routing system and integrated TypeScript to ensure strict code reliability and type safety.
